DEAR GUEST,

Welcome to the most romantic and mythical spot in Estonia - Haapsalu and Läänemaa.

It is easy to fall in love with Haapsalu: once here, the winding streets ending up at the sea, the old town with houses adorned with wooden lace and the mysterious White Lady appearing in a chapel window on moonlit nights will keep the visitor spellbound.

The pebble beaches, squealing seabirds, grassy meadows and peaceful groves will appeal to visitors fond of nature and serenity. Matsalu's abundant bird sanctuary draws visitors from all over the world - it is Europe's biggest and most diverse nesting area for migratory birds.

History lovers should make time to look into medieval churches and castle ruins so typical to Läänemaa. The area is also known as the former homeland of Swedes - their presence can still be felt in Vormsi, where the graveyard boost the world's biggest collection of circular crosses.
